Have we ever had a city employee been shot at or threatened? The best thing to do is call the police. If shooting is going to be done, let the police do it not just any city employee. If you put the city employees in this and everybody knows they have guns you are going to cause chaos around here. If they go to someone's house to cut the water off and somebody gets mad and everybody gets made then everyone starts shooting. I think it is a bad idea."
